Physica corporis humani, CLXXX, 695.

Istiusce operis partis analysim damus ut clare videatur ope istiusce Tabulæ in isto tempore status scientiæ physiologicæ humanæ.

Corpus humanum. — Omne corpus animale terra formatum est, id est ex quatuor compositum... Quatuor sunt elementa ex quibus constat; unumquodque autem elementorum una tantum contentum est qualitate; ignis caliditate, aer humiditate, aqua frigiditate, terra siccitate... Secundum Hippocratem, si corpus animale ex uno constaret elemento, nunquam doleret; quia non esset unde doleret, unum exsistens; sed elementa corrumpuntur, et hoc modo fit corruptio... Videndum unde corpori quatuor humores nascuntur, vel nutriuntur. Omnis cibus sumptus ex quatuor constat elementis : sed quam multipliciter et dissimiliter in eis quæ vesci possunt, natura elementorum se habeat secundum caliditatem et frigiditatem siccitatem et humiditatem liber graduum demonstrat. Cum igitur cibus accipitur, os primum adoptat illum in subtiles et minutas partes cum dentibus et lingua... Sic præparata esca transmittitur stomacho per guttur et merum... Est autem meris membrum longum et rotundum et concavum, et intus villosum, habens introrsum pilos longos, alios in transversum, alios sursum ad os directos. Pili sursum directi naturaliter cibum attrahunt, qui vero in transversum, stringunt. Stomachus duo habet ora, alterum superius, alterum inferius. — Superius enim os stomachi, accepto cibo, clauditur donec digeratur. Deinde retinens quod suis aptum nutrimentis invenit, cætera, porta inferiori aperta, egerit in inferiora. Operatur autem hæc stomachus per quatuor virtutes quæ sunt ei naturales, appetitivam, contentivam, digestivam, expulsivam : quibus virtutibus non carent præsertim cerebrum propter animalem, rel sensualem virtutem, cor propter spiritualem, epar propter naturalem, genitalia propter generativam virtutem... Inferiores sub stomacho intestini non carent. Quæ per inferiorem portam egeruntur, suscipit duodenum intestinum ; quod sic vocatum est, quia ad mensuram est duodecim digitorum. Statim cum facta est digestio, et per digestionem rei digestæ alteratio, sequitur eorum quæ feculenta sunt egestio. Suscipiunt et alia intestina quæ egeruntur, tria subtilia superius, circa os stomachi, tria grossa inferius. Est autem inferius intestinum unum subtile vocatum, in quod cum descenderit quod egestum est, aliquandiu ibi immoratur, donec ibi secunda quadam digestione melius succus ille deparatus et subtiliatus, per venas quas dicunt mesaraicas, quod subtile est et purum, remittit ad epar. Epar prædictum succum suscipiens per venas prædictas, et eam quæ dicitur porta, in sui naturam transmutat, iterum digerendum. Quidquid enim in eo igneum est, ad nutrimentum sui assumit cholera rubea ; quidquid aereum, sanguis ; quidquid aquosum vel humidum, flegma ; quidquid grossum et terrenum, melancholia. Sic igitur humores quatuor in epate creati, et ab epate in totum corpus distributi, si secundum rectam naturæ regulam incedunt, quamvis diversæ sint qualitatis, unam tamen formam operantur sanitatis, invicem cooperando, invicem se adjuvando... De digestione etiam ista fumus ascendens lenis et suavis, molliter tangit cerebrum, et ventriculos ejus opprimit, in tantum ut omnes ejus actiones sopiat ; hic est somnus. In quo, cessantibus, omnibus animæ virtutibus, sola viget virtus naturalis... Primum cibi in medio stomachi albi efficiuntur, id est flegmatici ; circa inferiora prope epar quasi sanguis aquosus ; decoctus in epate sanguis ; plus decoctus cholera rubea ; nimis decoctus cholera nigra. (*Sequuntur alia hujusmodi ad hominis physiologiam attinentia.*)

INDEX

DE VESTIBUS SACERDOTALIBUS, MONASTICIS ET LAICALIBUS,

QUORUM FIT MENTIO IN PATROLOGIA,

EXPONENS MYSTICAM ILLORUM SIGNIFICATIONEM.

—

PARS PRIMA.

De vestimentis Summi Pontificis et sacerdotum in Veteri Testamento.

1. Femoralia linea, sive feminalia quæ usque ad genua et poplites fluunt ad tegenda sacerdotis verenda, braccæ quoque vocantur. — 2. Tunica byssina talaris, corpori adhærens, cum strictis manicis, et usque ad crura descendens; nulla ruga in ea esse debet, in militibus eadem camisia vocatur. — 3. Balteus, seu cingulum, vel zona, texitur sub tegmine cocci, purpuræ, hyacinthi et stamine byssino ac polymita arte distinguitur. Tunicam lineam inter umbilicum et pectus stringit balteus. — 4. Pileolus rotundus; a Græcis tiara, a nobis vero, galerus vocatur, non habet acumen in summo et byssinus est.

Hæc sunt vestimenta communia sacerdotum et summi pontificis, sequentia vero propria sunt summi pontificis. 1. Tunica talaris, apud Hebræos, *mail* dicta, tota hyacinthina, habens manicas ejusdem coloris et superiori parte aperta qua collo indeitur. Ad imam partem pendent duo et septuaginta tintinnabula totidem malis punicis inter mista, ut ingrediens ad Sancta sanctorum pontifex totus vocalis incedat, statim moriturus nisi hoc faciat. — 2. Ephod, id est superhumerale, quatuor coloribus, scilicet, hyacintho, bysso, cocco, purpura, et ex auro contextum. Contra pectus nihil textitur, ut locus Rationali relinquatur. In utroque humero habet singulos lapides astrictos auro quorum in singulis sena patriarcharum nomina sunt, ut Sancta sanctorum ingrediens pontifex nomina populi pro quo rogaturus est in humeris portet. — 3. Theraphim, seu logion, quod rationale vocamus, est pannus brevis ex auro et quatuor coloribus textum, habens magnitudinem palmi per quadrum. Intexti sunt ei duodecim lapides pretiosissimi per quatuor ordines. In singulis lapidibus secundum ætates, duodecim tribuum nomina sculpta sunt. Per quatuor rationalis angulos, quatuor annuli sunt aurei quibus adnectitur super humerali vittis hyacinthis catenisque aureis. — 4. Lamina aurea in qua scriptum est ineffabile Dei nomen quatuor litteris hebraicis. *Jod, he, vau, he*, id est *Jeovah*. Hæc super pileolum lineum et commune omnium sacerdotum, in pontifice plus additur, et in fronte vitta hyacinthina constringitur, totamque pontificis pulchritudinem, Dei vocabulum coronat et protegit, S. Hieronymus, XXII, 613.

Octo sunt vestimenta sacerdotalia Veteris Testamenti. — 1. Podaris, vestis linea corpori astricta, usque ad pedes descendens, quæ vocatur etiam camisia. — 2. Abnaeth id est cingulum, polymita arte ex cocco, purpura, hyacinthoque contextum ita ut flores, gemmæque in eo viderentur distinctæ — 3. Pileum ex bysso rotundum, caput tegens sacerdotis, in occipitio vitta constrictum, hoc Græci, et nostri tiaram, vel galeriam vocant. — 4. *Mahil*, id est tunica talaris, tota hyacinthina habens ad pedes 72 tintinnabula totidemque intermista mala punica. — 5. Ephod, pallium superhumerale ex quatuor coloribus et auro contextum, habens in utroque humero duos smaragdos auro conclusos in quibus erant sculpta nomina patriarcharum. — 6. Logion, id est rationale, pannus duplex, auro et quatuor textum coloribus, habens magnitudinem palmi per quadrum, cui per quatuor ordines intexti erant XII lapides pretiosissimi in singulis quarum insculpta duodecim patriarcharum nomina. — 7. Petalum, seu lamina aurea in fronte pontificis posita quæ nomen de *tetragrammaton* Hebraicis litteris habebat scriptum.—8. *Badim*, seu femoralia, id est Græcæ lineæ usque ad genua pertingentes quibus verecunda sacerdotis velabantur, S. Isidorus, LXXXII, 681 *seqq.*

Apud Ven. Bedam eximia exstat descriptio atque mystica interpretatio Vestium sacrarum antiquæ legis. Istæ autem sunt : rationale, pectoris habitus; superhumerale, humeros cooperiens; tunica interior, linea vel byssina; tiara byssina, seu cidaris, lamina aurea in fronte posita; balteus, seu cingulum, femoralia. Ex his octo vestimentis, quatuor sacerdotibus minoris ordinis concedebantur; femoralia videlicet, linea stricta vestis, balteus et cidaris. Cuncta autem fiebant de auro, pretiosis lapidibus eximisque coloribus, quia nihil vile aut sordidum, in sacerdotis ore, vel opere debet apparere, sed cuncta quæ agit, universa quæ loquitur, omnia quæ cogitat et coram hominibus præclara, et in conspectu interni arbitrii oportet, esse gloriosa, Ven. Beda, XCI, 464

Erant autem octo species vestium sacerdotalium in Veteri Testamento, scilicet : tunica linea, tunica hyacinthina, superhumerale, rationale, cidaris. balteus, seu cingulum, lamina aurea in fronte Pontificis et feminalia minoris vero ordinis sacerdotibus, quatuor tantum licebat uti : tunica linea stricta, cidari, balteo, et femoralibus. (Vide fusius apud auctorem ipsum.) Alcuinus, CI, 1238 *seq.*

Rabanus Maurus recenset indumenta pontificis ac sacerdotum Veteris legis, jam a nobis supra pluries exposita, CXI, 568. — Exponit quoque variarum aliarum vestium nomina et origines de quibus dicemus infra ad Isidorum Hispalensem, LXXXII, 693.

Descriptio et mystica significatio sacrarum vestium in Veteri et Novo Testamento, Ivo Carnot., CLXII, 534. *seq.*

Octo sunt vestimenta pontificis apud Hebræos, scilicet : tunica byssina, zona, tunica hyacinthina, e qua pendebant 72 tintinnabula aurea totidem malis granatis intermista, superhumerale seu ephod, rationale seu logion, mitra, sive tiara, aut cidaris, lamina aurea et femoralia, Hugo a S. Victore, CLXXVI, 434.

Eadem quæ supra exponit hic auctor consulendus est, Thomas, Cisterciensis monachus, CCVI, 663 *seq.*

Quatuor erant indumenta legalia tam minoribus sacerdotibus quam principi sacerdotum communia : 1° femoralia de bysso retorta contexta; 2° camisia, seu linea subucula byssina et duplex; 3° balteus, quatuor digitis latus, contextus de bysso, cocco, purpura et hyacintho; 4° tiara, seu insula, aut cidaris, formam quasi rotundæ cassidis repræsentans.

Propria vero pontificis ornamenta erant : 1. Tunica hyacinthina, id est poderis, seu talaris vestis ex qua pro fimbriis pendebant malagranata cum tintinnabulis duo et septuaginta interposita, ut audiretur sonus cum pontifex sanctuarium ingrederetur, ne forte moreretur. — 2. Ephod, id est superhumerale, de quatuor coloribus auroque contextum, sine manicis ad modum calobii, habens aperturam in pectore quadram, in qua *logion*, seu *rationale* inserebatur. Super humeros infibulati erant auro duo lapides onychini in quibus duodecim nomina filiorum Israel erant insculpta. — 3. Logion, seu rationale quod pontifex ferebat in pectore habens duodecim lapides per ordines quatuor in quarum singulis scripta erant duodecim filiorum Israel nomina. In rationali quoque sculpta erant hæc duo verba : *Doctrina et veritas*. — 4. Capitis ornamentum erat cidaris habens circulum aureum cum malis granatis ac floribus. — 5. Lamina aurea supra frontem posita in qua erat scriptum sanctum Dei nomen tetragrammaton, Innocentius III, papa, CXIV-CXVII.

PARS SECUNDA.

Legalium indumentorum typica significatio.

Femoralia byssina terram figurabant quia byssus de

terra gignitur balteus, seu cingulum cum vittis circumvolutionem Oceani designabat. Tunica hyacinthina, ipso colore aera præferebat; per tintinnabula sonitus tonitruum indicabatur; per mala granata, coruscationes et fulgura. Quatuor colores, quatuor elementa adumbrabant. — Ephod sua varietate cœlum sidereum ostendebat; duo lapides onychini solem et lunam, vel duo hemispheria denotabant duodecim gemmæ, apostolos et duodecim signa Zodiaci præferebant. Rationale, rationem divinam qua omnia sunt plena, quaque terrena cœlestibus hærent. — Catenæ, uncini, annuli, colligamenta elementorum et temporum signant. Cidaris, cœlum empyreum. — Lamina superposita, Deum omnibus præsidentem; unde in Sapientia XVIII, dicitur : *In veste poderis totus erat orbis terrarum et parentum magnalia in quatuor ordinibus erant sculpta, et magnificentia tua in diademate illius erat scripta.*

Moralis earumdum vestium significatio.

Femoralia, castitatem indicabant. Linea vestis, innocentiam; — zona, resecationem concupiscentiæ; — vestis talaris, perseverantiam in bonis operibus; — tintinnabula prædicationem veritatis et malagranata, bona opera; — ephod, patientiam ac obedientiam; — duæ oræ ephod, arma justitiæ a dextris et a sinistris; — duo onychini, veritatem et sinceritatem; — duodecim nomina, conjunctionem bonorum desideriorum cum bonis operibus; — duæ catenulæ, duplicem charitatis affectum, erga Deum et proximum; — rationale, discretionem inter lucem et tenebras; — quadratura rationalis, discretionem veri et falsi, boni et mali; — quatuor lapidum ordines, quatuor virtutes, justitiam, scilicet, fortitudinem, prudentiam et temperantiam; — duodecim lapides, varias virtutes quas pontifex habere debet; — cidaris seu tiara, supereminentiam pontificis dignitatem; — lamina aurea, sapientiam; — nomen Dei tetragrammaton, Deum ipsum omnium principium et finem; — varietas operis, varias virtutes; — quatuor colores, purpura scilicet, potestatem; coccus bis tinctus, pontificalem doctrinam quæ ut ignis lucere debet et ardere; — byssus, præclaritatem famæ; — hyacinthus, conscientiæ serenitatem, S. Innocentius III, papa, CCXVII, 786 *seq.*

PARS TERTIA.

Quæ fuerint pontificum ac sacerdotum Novæ legis vestes earumque mystica significatio?

Lacerna et byrrus, indumenta linea omnibus episcopis communia, alii illa ephod nuncupant, juxta Italos vero, rochetum dicitur. — Byrrus erat rubei coloris. — Dalmatica. — Aliud indumentum sacerdotale, S. Cyprianus, III, 1504.

Nota. — Cum sanctus Cyprianus in agrum Sexti, ubi martyrium passurus erat productus fuisset, ibi se lacerna byrro expoliavit, et genua in terra flectens in orationem se Domino prostravit et cum se dalmatica expoliasset et diaconibus tradidisset, in linea stetit et cœpit spiculatorem sustinere.

Dalmatica, seu colobium purpureum, vestimentum sacerdotale quo etiam ornabantur sepeliendi martyres, Victorinus, episc. Pictav., V, 158. — Vestis talaris erat sacerdotale indumentum, *ibid.*, 318.

Planeta, seu planica quæ in vestibus sacris casula dicitur, quasi parva casa, quia olim totum hominem, instar casæ, tegebat planeta ad pompam erat composita, ampla ac splendida erat, Cassianus, XLIX, 60 *seq.* — Birrus, seu byrrus censetur fuisse genus pallii brevioris, ecclesiasticis et monachis olim usitatum. Nunc lineum erat, nunc vero sericum ac pretiosum. Fuit autem antiquus episcoporum habitus ut primo vesti communi super induerint lineam seu lineum indumentum quod *rochetum* vocant; deinde vero solutam tunicam manicatam, dalmaticam nuncupatam, ac denique palliolum breve humeros tantum et brachia tegens, *ibid.*, 73.

Sacerdotes et levitæ, vestibus albis, in re sacra utebantur. Erat, ait Gregorius Turonensis, sacerdotum ac levitarum in albis vestibus non minimus chorus.

Vestes sacræ de quibus apud hunc auctorem mentio fit :

1. Alba, seu vestis linea qua episcopus aut sacerdos celebraturus, induebatur. — 2. Tunica, seu casula. — 3. Orarium, in modum crucis ante pectus positum. — 4. Capsa quæ nunc cappa vocatur, cujus pars posterior ex humeris dependebat; eamdem S. Cyprianus processoriam vocat. S. Germanus, episc. Paris., LXXII, 146.

PARS QUARTA.

Quæ fuerint monachorum ac monialium vestes.

1. Cingulum, nam Monachus, ut bonus Christi miles, semper accinctis lumbis incedere debet.

2. Cucullus, vel cucullio, aut cuculla, caput et humeros ambiens et protegens, simplicitatis ac innocentiæ symbolum erat. In acumen desinebat, in hieme villosa, ac in æstate tenuis. Aliqui Ultramontani cucullam flocum, vel frocum appellant, habitum longum et amplum manicis carentem. Ægyptii monachi cuculla indesinenter utebantur, diebus ac noctibus, eratque persæpe cruce purpurea insignita.

Colobium quod dicebatur quoque libitonarium, vel levitonarium, seu lebeton, vel lebiton, manicis earum et quamdam habens similitudinem cum tunicellis ; modo albi coloris erat, modo vero, pulli, fusci aut nigri ; mortificationem atque promptam ad omne bonum opus dispositionem indicabat.

4. Rebrachiatoria quæ succinctoria, redimicula et analabus quoque vocabantur, erant quoddam scapulare ab humeris pendens sicut crucis jugum.

5. Mafors, sive mavors, alias maforte, vel mavorte, et

in plurali mafortes, erant angustum palliolum collum atque humeros tegens. Vilis erat pretii et humilitatem indicabat. Stolam illud Græci vocabant, Latini vero *ricinium*, alii etiam humerale nuncupabant.

6. Planeta seu planica quæ in vestibus sacris alio nomine casula dicitur, quasi parva casa, quia totum hominem instar casæ antiquitus tegebat. Exstant etiam nunc in quibusdam monasteriis planetæ ex omni parte rotundæ totum hominem circumdantes.

7. Birrus seu byrrus censetur fuisse pallioli genus, ecclesiasticis et monachis olim usitatum. Nunc lineum, nunc vero sericum, et pretiosum erat.

Talis fuit antiquus episcoporum habitus : primo, vesti communi superinduebant lineam, seu lineum indumentum quod *rochetum* vocabant, dein vero solutam tunicam manicatam, alio nomine *dalmaticam* ac denique palliolum breve humeros tantum et brachia tegens.

8. Ultimus habitus monachorum est *melos*, pellis caprina seu ovina quæ melotes vel pera appellatur. Erat vestis e pelle ovina vel caprina confecta quam gestant monachi ad imitationem eorum qui in Veteri Testamento vitam eremiticam agebant. A quibusdam penula, et ependytes vocabatur. A collo pendebat usque ad lumbos.

9. Baculum quoque portabant ad prophetarum imitationem, ut firmiter in via mandatorum Dei incederent.

10. Calceamenta; eum ista, veluti præcepto evangelico sibi interdicta arbitrarentur, tantummodo caligis suos muniebant pedes, cum infirmitas corporis, vel hiemis matutinus rigor, seu meridiani æstus fervor exigeret.

11. Cilicium, quoddam indumentum rigenti pilo, clavis, cuspidibus, horridum ad carnem macerandam aptatum. A sacco distinguebatur. Cassianus monachus, XLIX, 60-65.

Dentur ab abbate omnia quæ sunt necessaria, id est cuculla, tunica, pedales, caligæ, bracile, cultellus, graphium, acus, mappula, tabulæ, ut omnis auferatur necessitatis excusatio.

Cuculla debet esse villosa per hiemem et in æstate pura et vetusta. — Scapulare, propter opera; erat apertum ex utroque latere; pars quæ ante et retro pendebat. usque ad talos pertinebat. — Indumenta pedum, pedales, et caligæ. — Stramenta lectorum sufficiant, matta, sagum, lena et capitale. — Cuculla quoque a sanctimonialibus gestabatur, et ea indutl ad sacram communionem accedebant monachi, unde concludere licet illam postea totum corpus subtexisse; cappa etiam vocata est. — Itinerantes pro floccis, poterunt uti cappa rotunda, flocco breviori, ex utraque parte aperta, cui desuper assutum est caputium. Subtus vero cappam, scapulare deferant et capellum de filtro, nigrum, non hirsutum sed planum. Juxta alios, labentibus annis, cuculla facta est vestis ampla, talaris, manicata, habens speciem crucis per quatuor partes extensæ. — Flocus, vel frocus vocabatur quoque cuculla major, aliquando caputio carens, aliquoties vero, caputium habens. — Colobium tunica linea erat, perparvas habens manicas, ut indicaret vitam sine hypocrisi; a quibusdam cotardia vocabatur.— Coquinarii autem gestabant tunicas ex sacco, et cucullas ex segestri.

Benedictini monachi non utebantur camisiis vel interulis, sed tantum ciliciis sicut et Carthusiani ac Cluniacenses, excepta infirmitatis causa, ubi stamineis utebantur. Aelredus tamen virginibus suis duas stopaceas camisias, vel stamineas concessit.

Pedales quos S. Benedictus suis concessit erant calcei qui pedem tegebant et caligæ subtalares, vel socci qui pedem non cooperiebant et ligabantur. — Tibiacum, tibiam induebat. — Ocreæ alti calcei erant et in lingua Teutonica botæ vocabantur. — Sandalia erant quoddam caligæ genus. — Aliquando clavatæ erant propter itinera; in hieme vero, lignea et pellicea. — Femoralia femora induebant. — Braccæ inferiorem corporis partem stringebant. — Fasciola erat quædam pars monachorum vestium. — Mannariola ac facitergia erant lintea ad monachorum usus.

Hæc diversa vestimenta apud varios ordines varii coloris erant. Apud quosdam nigri coloris, apud quosdam vero, albi, apud alios autem, fusci.

Candidum colorem deferunt cum Cisterciensibus, Camaldulenses, Carthusienses, Cælestini et Olivetani; multæque sanctimoniales utebantur indumentis laiis et lactinis.

Monachorum vestimenta, non nimis curta vel brevia erant, nec longiora, sed mensurata. Illud autem nimis curtum habebatur quod talum non attigit; longius vero, quod ad humum defluit et pulverem movet.

Quædam alia monachorum indumenta vocabantur : sotularis, pellicia gemella, et nocturnalis. Alia quotannis dabantur, *alia* autem, singulis duobus annis, alia de triennio in triennium.

Monachorum capitis tegumentum vocabatur aliquando biretum.

Juxta quosdam, monachorum calcei crepidæ appellabantur, et in aliis regionibus viltronæ. Wantos, seu chirothecas ferebant in via. Benedictus monachus, LXVI, 72 *seq.*

Monachorum lectorum stramenta.

1. Matta, teges e juncis contexta; hanc solo substernebant monachi, hæc erat quotidianum scamnum, hæc culcitra, hæc plumella, hæc stragulum, hæc omnis lecti commoditas. Super mattam dormiebant, imo super unam illius partem jacentes, altera corpus contegebant. Mattæ assidebant, ea pro sede utentes. In matta oraturi genuflectebant, super mattam morituri deponebantur. Inde colligi licet mattam esse stratum durum mortificationi aptum.

2. Sagum, erat stramentum, aut e grosso lino aut de cannabe factum et fere in modum sacci formatum et super mattam positum, quod monachi pro lectisternio habebant. Recentiori vero sensu, sagum illud est quod continet vel paleas vel fenum. Sagellum quoque vocabatur. Intelligi etiam potest, gallico sensu, *une grosse serge velue à mettre sur le matteras.*

3. Læna, toga duplex, species vestis villosa quam nos toxam, alii vero gainapem, aut gabanem vocant, seu stragulum villosum ad repellendum frigus aptum.

4. Capitale, est cervical, lana, paleis, aut plumis plenum, quod nos plumacium dicimus. Hæc quidem stramenta, S. Benedictus fratribus indulsit.

S. Pachomius, a Cœlo monitus, jussit suos monachos dormire sedentes in sedibus supinioribus, superjectis stragulis.

De regula Isidori, monachorum stratus erat storea, seu teges, stragulum, pellesque lanatæ duæ, gainabis quoque et fecis tergium geminusqui ad caput pulvinus.

Brachile existimatur a quibusdam esse orachiorum indumentum; illud reddit in versione sua Gallica Juvenalis : *Manche, manchon.* Verisimilius autem haberi potest pro cingulo, vel zona qua bracræ ligantur. Graphium, stylus erat quo monachi in cera scribebant.

Mappola est sudarium ad tergendum nasum aptum.

Mensuræ sunt pugillares in quibus scribebatur. Benedictus monachus, LXVI, 792 *seqq.*

MONITUM.

In isto indice non tantum præsto sunt quæ litteratorum auribus minus recte sonant, sive ob syntaxis negligentiam et sensus obscuritatem, sive ob quarumdam locutionum usum insolitum et ipsius, ut aiunt, *barbariem*, sed etiam quæ feliciter uniuscujusque invenit ingenium. Profecto enim absurda est, etsi vulgo accepta, opinio eorum qui ut fastidiosa et stomacho repugnantia quælibet medii ævi scripta respuunt. Factum hoc, ut apud Cœl. Sedulium notamus, nonnisi impiorum est hominum, quo obtinuerunt ut negligeretur antiquitatis studium: et quod triste est dictu, diutius nimium prævaluit ipsorum perversitas. Latinitas eo ipso quo *ima* seu *infima* dicatur non est ideo contemnenda, sed e contra studii cujusdam accuratioris causa efficitur. Veterum Romanorum idiomatis fortuna atque imperii eadem esse debuit, præda scilicet victorum: hic incepit longævus iste parturitionis labor ex quo ortæ sunt non subito sed gradatim recentiorum linguæ baptismo scripturarum ex integro imbutæ · et quis in dubium audeat revocare quin sibi mirabiliter unaquæque lingua tantas opes vindicaverit? Deus ille Moysis, Christus iste Apostolorum cum suis angelis et sua dilectissima Ecclesia, deos et deas ex toto Olympo detrudit, et ubique per orbem terrarum prædicatus, linguam linguæ substituit juxta cujusque gentis morem et ingenium: Quidquid ergo mussitent antiquarum fabularum jactatores, grandia et pulcherrima orta sunt ex medii ævi elvaboratione, linguarum tyronibus summe commendanda. Inter mille et millia neologismorum exempla quid auribus poetæ delicatissimis dulcius resonare possit quam hæc nunc tam trita: *Notre-Dame, ton Bon Ange, mon Clocher, la douce Providence, un beau Dimanche, les Saints Autels, la*

croix de Pierre, etc., etc. Et hæc non tantum Gallice dico, sed et Germanice, Anglice, Hispanice, Italice. Aliunde quot voces minus honestæ nequidem tolerantur Christianis auribus et e lingua radiantur. Igitur lector sedulo meminerit, quemque auctorem etiam infimæ Latinitatis suos habuisse archaismos et sibi proprium leporem : sed si aliquando barbaras voces adhibuerit eo quod verbis propriis sæpissime res novæ indigerent, hoc egit, vel ut facilius a lectoribus intelligeretur quibus ipse Latinus scriptor barbarus videbatur.

Ratio ordinis quem secuti sumus hæc est. Primum necesse credidimus unicuique auctori relinquere quæ sua sunt, ut inde difficilius gigneretur confusio. Ita vero quasi quoddam leve speculum ante oculos exponitur, cujus species et forma homogeneitatis suæ et unitatis servat characterem. Ad calcem indicis habet omnium auctorum seriem, cujus auxilio facilis est quælibet inquisitio, ratione habita, et chronologiæ temporum quam accurate notavimus, et ordinis tomorum *Novi Cursus Patrologiæ*. Præterea omnes auctores in eodem chronologico ordine largimur quo occurrunt in Novo Cursu : sed quod unicuique proprium est duplici parte distinguimus, videlicet dialectica et grammaticalis, quæ de linguis in genere aut etiam de lingua specialiter disserit, et diacritica, quæ de voce et verbis disputat. In priori inseruntur quæ soni, vocis, verborum, sermonis et scripturæ originem et usum respiciunt, sicut et grammaticæ utilitates et leges, item humani ingenii studia et labores quibus scripta de lingua in aliam linguam transiere. In posteriori vero parte disponuntur ordine alphabeti voces et locutiones notatu dignæ, in tot categoriis quot linguæ. Tres vulgo statuuntur, nempe, Hebraeæ voces, Græcæ et Latinæ.

N. B. Romanus numerus dat tomum *Novi Cursus Patrologiæ*, columnam autem arabicus; ad Romanum ultimo citatum recurras quoties deficit.

De lingua Hebraica. — Scriptura sacra ab una lingua perfecta opportune potuit per orbem terrarum disseminari; per varias interpretum linguas longe lateque diffusa est, CVII, 380. In Scriptura ita obscure dicta sunt quædam, ut densissimam caliginem obducant, *ibid.* Nulla sane sunt magis mandanda memoriæ, quam illa verborum locutionumque genera quæ ignoramus, 385. Debet autem studere is qui propriorum signorum peritus esse vult, quantum ad sermones pertinet, ut et certam cognoscat vim verborum, et proprium sciat modum locutionum, 386. Probabile est quod in familia Heber ex quo Hebræi dicti sunt permanserit lingua quæ primitus Adam data fuit, 530. Quod in linguarum divisione nihil novi condidit creator, sed tantum dicendi modos et formas in diversis loquelarum generibus divisit, *ibid.*; CXI, 435. Lingua Hebræa usi sunt patriarchæ et prophetæ, *ibid.* Prima est linguarum sanctorum, *ibid.* Arbitrantur quidam linguam Hebræam ipsam esse Chaldaicam, quia Abraham de Chaldæis fuit; sed errant eo quod legitur tres pueri Hebræi e quibus Daniel unus erat, didicisse linguam quam non noverant, scilicet Chaldæorum, 436. Omnes orientales in gutture linguam et verba collidunt, sicut Hebræi et Syri, *ibid.* Occidentales autem verba in dentibus frangunt, sicut Itali et Hispani, *ibid.* Syrus et Chaldæus vicinus Hebræo est sermone, consonans in plerisque, ut litterarum sono, *ibid.* Litterarum Hebrææarum interpretatio, 1185.

Plectra revolvamus vocis post terga stuporum
Fædere quo fragili fuerant infecta loquamur,
Agmina Normannum Francis e finibus antra
Ad sua nolentum descendere, sed Sequanina
Imo fluenta cupiscentum, tua ruraus adire
Quæ argentum sibimet retinendo, novalia monstrent;
Hic Ebalus raptat cordam vibratque sagittam
Quam nauclerus in ascellam per navis ialum
Prævius accevit, modicum terebroque foralum.
Evax, inveniunt quingen, plagisque trucidant
His miscuit præstans Ebolus Mavortius abba,
Ni cupidus nimium, lascivus, et omnibus aptus;
Nam pulchre nituit studiis, quæ gramma ministra
Fœderis antistes causa permisit abire
Anschericus tentos, potius concidere debens.
Clerice, dipticas lateri ne demperis unquam;
Corcula labentis fugias ludi fore, ne te
Lætetur fœdus sandapila neque toparcha;
Machia sit tibi, quo ierarchia, necque cloaca,
Non enteca, nec alogia, verum absida tecum
Commaneat....
Gripphia te tangat, carchesia, togaque crebro,
Absistat vero glauconia, criminis offa.
Brathea blatta dehinc, enclitiva, prosapiaque
Militiæ Christi per te nullatenus absint.
Amphytappa laon extat, badanola nec non;
Effipiam, diamant, stragulum pariterque propomam,
Agugula cælebs aginat pecudes, nec abiundam.

MONITUM.

Index iste differt ab analytico in eo quod non omnes Patrologiæ res afferat, sed tantum præcipuas, et sub alio modo. Ideo nedum sit repetitio, tempore carentes multum adjuvabit; et si quid illis deest, hoc in indice ejusdem generis fusius tractato brevi tempore invenient. Insuper plura in indice gigante omissa, aut sub respectu novo tractata felicissime eis occurrent.

LECTORI BENEVOLO.

Si quem dura manet sententia judicis olim,
Damnatum ærumnis supplicilisque caput;
Hunc neque fabrili lassent ergastula massa,
Nec rigida vexent fossa metalla manu:
Lexica contexat; nam cætera quid moror? omnes
Pœnarum facies hic labor unus habet.
(Scaliger.)

Quanquam quæ multa passim ac luculenter dicta scriptave fuerunt a clarissimo et eminentissimo viro J. P. Migne, me præfandi onere maxima ex parte levent; quædam tamen superesse video de quibus lectorem, in ipso statim aditu, prænonitum fuisse non pigeat. Instituti enim mei ratio reddenda est. Quod paucis, Deo juvante, absolvam.

Ante igitur quam me incuses, optime lector, legito quæ subsunt et attendito quænam quorsumve dicantur.

Ac primum quidem, ut cujus rei gratia hanc ego laborum molem susceperim atque sim aggressus, moneam; ea mihi mens fuit ut eo libentius quo facilius illos sanctorum Patrum fetus nocturna diurnaque manu versares. Cum enim sint sane omnia ista, quæ a tot et tantis ecclesiarum magistris posteri-

tati relicta sunt litterarum monimenta, utilia in primis atque insignia; ejusmodi insuper sunt ut vel ad rectæ fidei depositum custodiendum contra hæreticorum venenata dogmata vires atque arma suppeditent; vel ad rectam vivendi rationem sapienter instituendam maximo sint adjumento; denique generosis ac bene natis ingeniis eruditionis ac scientiæ plurimum conferant. At vero in tanta rerum farragine, qui non detineretur aut deterreretur quisquis indagandum sibi aliquid constituisset, nisi ad manum quodam modo deductus procederet, indice quovis monstrante viam?

Ego igitur, Deum propitium fore confidens, ad hoc opus me accinxi, in hoc laborem contuli, huic operi insudavi, ut videlicet hunc illum indicem, quo uterentur omnes ad omnimodas quæstiones, compingerem. Quod si vero e sententia successerit, bene positam operam studiosi sponte affirmabunt; nec tanti est ut illud tam immensum opus, quo tandem pacto perfecerim, etiam paucis exponam : noverint qui ausi idem, sudarint multum, frustraque laborarint.

Index porro quilibet ad id potissimum, ni fallor, conficitur ut indicet, non autem ut ostendat ac quasi repræsentet ea ipsa quæ exquiruntur. Res est plana, ut arbitror, et per se conspicua. Licuit igitur mihi, quin et decuit intra certos restrictosque limites contineri. Aliter siquidem, ut ait poeta notissimus :

. . . . . Longa forent fastidia, longæ
Ambages; sed summa sequor fastigia rerum.
(*Æneid.*, I, 345, 346.)

Et idcirco cum veluti furtim raptimque summaria quæque rerum capita indicentur, raro admodum erunt negligenda tibi vel levissima indicia. Sæpe enim sæpius paucissimis verbis indicata invenies quæ per multas exinde paginas, in textu Patrum, large et copiose decurrant. Originem ego, ut exemplis utar, caputque fluminis ostendi indigitans; tu prono deinde cursu declivique, obliquas, si libuerit, sequeris ripas, ut ad ostia tandem oraque devenire contingat. Numquid enim, amabo te, singula singulis, ac proinde ad fastidium usque ac nauseam, numeris indicanda fuisse censes? Quorsum hæc, cedo, quandoquidem semper, at nunc præcipue, *intelligenti* cuilibet *pauca* satis futura fuerint? Reque apse, cum instituitur ab auctore aliquo tractatus quivis de hoc vel illo argumento, integrum, opinor, tractatum summatim et quasi obiter legenti indicasse muneris mei est, at non quæcunque capita singulatim; quæ tu quidem videbis ipse et requires, si cautus ac vigil animum advertas. Quæ vero huic eidem tractatui quasi fortuito casu interserta intermixtave exciderint, hæc præterire atque omittere summa cavi diligentia, cum meæ non tuæ partes fuerint illa eadem indagare atque investigare. Pace igitur tua dixerim, me brevitati operis simul ac veræ lectoris utilitati consultum provisumque voluisse et invigilasse. Nunc cum Propertio dicam :

Quod si defuerint vires, audacia certe
Laus erit; in magnis, et voluisse sat est

Ita autem huncce ego Indicem compegi et ordinavi, non ut a legendorum Patrum necessitate eximaris, quod me et te, amice lector, certo certius puderet; sed ut per teipsum deque visu, ut aiunt, eorumdem scripta pura puta ipsa pernosceres ac propriis penitius medullitiusque inspiceres atque perlustrares oculis. Inde etiam est quod multa in dubiam, seu in ambiguam formam, ex industria, retulerim, quæ cæteroquin ex se indubia prorsus atque omnino inconcussa remaneant.

Haud tamen inficias iverim me plura interdum consulto transiliisse, propterea scilicet quod ad Indicem Scripturarum reapsius (des veniam verbo) pertinerent. Peculiarem vero, hoc advertas velim, propriis, ut vocant, nominibus curam, ne dicam sollicitudinem impendi et adhibui, ratus videlicet illinc quærenda ut plurimum emunctæ naris indagatoribus quæ ipsis opus forent.

Cæterum nullus dubito quin, qui plura voluerit, ad ipsos ipsorum peculiares Patrum ac Scriptorum Indices, ubiubi non desunt, sedulo recurrat; qui quidem cum sint singuli locupletes admodum, amplissimam certe, non dico messem modo, sed farraginem rerum subministrabunt; quam mihi, generalia quæque notando, delibare tantum ac veluti perstringere mens fuit ac propositum. Quod quomodo sim assecutus, non meum est, etsi omnium, dispicere.

At ne in immensum crescant nostra hæc monita, illud te, lector amantissime, rogatum ac monitum velim, ut, si quid occurrerit a me prætermissum, ne prius mihi vitio vertas quam quæ sententia proxima sunt, apprime consulueris, ubi spero equidem fortasse an repertum iri quidquid in istis desiderabitur.

Quoad sigla, seu mavis siglia, hoc unum moneo : tribus auctoribus, Augustino scilicet, Hieronymo et Ambrosio, propter principalorem auctoritatem, necnon et interdum Tertulliano, propriam instituimus nominationem ac designationem; cæteris vero non ita.

His igitur breviter præmissis, opto, candide lector, ut valeas et mihi bona preceris.

Scribebam apud Durocasses, in diœcesi Carnotensi, sexto Kalendas Octobris, ann. R. S. 1863.
